BASIC YOGA FLOW: Provides poses that range from gentle to challenging, but are completed with stable, self-centering energy. The pace of these classes is slower with the emphasis placed on safe alignment and maintaining a balance of slow breathing.

BARRE: Blends traditional Pilates movement principles with low-impact, isometric strength training. High reps of small range-of-motion movements will give you sculpted arms, toned legs, a lifted seat and strong abdominals. You will receive a full-body workout with muscle-shaping interval training exercises that elevate your heart rate and reshape your body.

BODYATTACK: A high-energy fitness class with moves that cater for total beginners to total addicts. We combine athletic movements like running, lunging and jumping with strength exercises such as push-ups and squats. Instructors will pump out energizing tunes and lead you through the workout – challenging your limits in a good way and leaving you with a sense of achievement.

BODYCOMBAT: A high-energy martial arts-inspired workout that is totally non-contact. Step into a BODYCOMBAT workout and you'll punch and kick your way to fitness. No experience needed. Learn moves from Karate, Tae kwondo, Boxing, Muay Thai, Capoeira and Kung Fu. You'll release stress, have a blast and feel like a champ.

BODYBALANCE: Ideal for anyone and everyone, BODYBALANCE® is the yoga-based class that embraces elements of Tai Chi and Pilates that will improve your mind, your body and your life. During BODYBALANCE® an inspired soundtrack plays as you bend and stretch through a series of simple yoga moves. You'll strengthen your entire body and leave the class feeling calm and centered. Happy.

BODYPUMP: is the original barbell class. BODYPUMP, a total body workout that will burn calories, shape and tone your entire body, increase core strength and improve bone health. BODYPUMP is available as either a 55 or 45-minute workout. Powered by science – using THE REP EFFECT formula of light weights and high repetitions, BODYPUMP develops lean, athletic muscle, aids metabolism and improves body composition.

BODYSTEP: Basic stepping, just like walking up and down stairs, is at the heart of BODYSTEP™ – a full-body cardio workout to really tone your butt and thighs. In a BODYSTEP workout you can expect a mixture of upbeat, rhythmic stepping, with squat and lunge patterns, combined with burpees, push ups and weight plate exercises. The result is a fun, uplifting, full-body workout that will leave you buzzing with satisfaction!

FUSION YOGA: This class is a gentle blend of Hatha and Vinyasa yoga styles. Hatha yoga is often slower moving than vinyasa, holding each posture longer so that it becomes a pose of meditation. During a Vinyasa practice, each posture is connected with inhalation and exhalation of breath and a vinyasa sequence to transition throughout the practice. With a graceful fusion of both styles, we are able to move through our asana practice with mindful intention, face any challenges with focus and a calm mind and lead with our heart as we create a conscious connection between our mind, body, and spirit.

GENTLE YOGA: Enjoy and enhance your yoga practice where yoga postures are held for a longer time to allow you to explore the physical body. Gentle yoga can strengthen muscles and joints while improving flexibility. Gentle yoga can be practiced by anyone, regardless of age or physical condition.
